

Disease Monitors

February 2021

MCN has a panel of disease monitors who are surveyed about their disease status and disease awareness.

MCN panel 276,010

MCN+partner panel 531,785

■ Patient Disease Status (personal condition)

※Single answer (unit : person)

[Cardiovascular Diseases]	MCN panel						MCN+partner panel					
	Have not visited a medical institution despite having been diagnosed or suspected during a medical checkup.	Currently receiving medical attention and treatment.	Had seen a medical institution within a year and had been treated.	Had seen and treated a medical professional within two years.	Had seen a health care provider more than two years ago and had been treated.	This disease is not related to me/ (None of the above apply to me)	Have not visited a medical institution despite having been diagnosed or suspected during a medical checkup.
